

B-Secure Large Medical Cabinet

#MC-21166-PFQ0-HL

The B-Secure Large Medical Cabinet is a wall-mounted, lockable storage cabinet designed with optimal space, advanced security, and efficient access. Ideal for use in hospitals, clinics, schools, camps, daycares, offices, and even residential homes – keeping your medical supplies safe & securely protected yet organized & easily accessible!

SECURED WITH THE POWER OF THE BRM-PFQ0-HL

- ✓ **Multi-Factor Authentication** - using multi-biometric technology and remote user enrollment through: **PALM, FACE, CARD, PIN & QR CODE RECOGNITION**. Supports 125 kHz & 13.56 MHz frequency credentials.
- ✓ **Advanced Security** - using AES-128 encryption standards and secure OSDP (V2.1.7) over RS485 communication, ensuring highest level of data protection with real time monitoring and tamper detection of all cabinet sides.
- ✓ **Intelligent Locking & Monitoring** - Remote lock & unlock and momentary or continuous lock actuation with local & remote monitoring, lock status outputs, & key use override detection.
- ✓ **Compatible Integration** - can be used as a standalone system, integrated with an existing building access control system or supplied as an individually networked full access control system.

- ✓ **4 Interior Shelves** – provide optimal space to store and organize a variety of medical supplies differing in size.
- ✓ **Steel Document Pocket** – attached at the back of the door for notes, manuals, clipboards, & other documents.
- ✓ **Pull-Out Shelf** – for use as a temporary tray to provide extra working space for preparing prescriptions and other supplies.
- ✓ **High-quality Steel** – built to withstand wear and tear for years, powder-coated finish is ideal for daily use and easy to clean.
- ✓ **Electronic Lock** – allowing access only to authorized users using multi-factor authentication, providing increased security and access control; manual key-override available for emergencies.
- ✓ **Compact & Mountable** – measuring 21in. tall, 16 in. wide, and 6 in. deep, weighing only 12lbs making it easy to mount on the wall without taking up valuable space.

Exterior Dimensions	21in x 16in x 6in (H x W x D)
Weight	12lbs
Body Material	Steel
Body Color	White or Blue
Door Access	Front – swing door (open left to right)
Lock Type	Quarter-turn mechatronic with wing knob
